Junior Year Checklist

FALL

- Continue to stay on track in your classes.
Build up that GPA.
- Use your test scores and current GPA to evaluate your post-secondary options. Start building a list of your top five colleges. FloridaShines' college and university profile lists the admissions requirements, deadline, and other important information about each public college and university in Florida.
- **It is highly recommended that you have the required test scores before applying to colleges (Fall of senior year)!**
- Know the dates and locations of the SAT, ACT and other tests you might be planning to take.
- Update your community service log to include summer volunteer hours and NHS, Beta, Anchor, ROTC, Interact, etc. hours from last school year. Please turn these hours in to Guidance – **the sponsors do not turn them in for you!**
- Find out if representatives from colleges you are interested in are visiting your area, and consider attending those sessions.

SPRING

- Continue to accumulate service hours needed for Bright Futures Scholarships.
 - Plan college visits for the summer.
 - Organize financial aid information.
 - Start college application essays.
- Create a filing system to help you keep all of your college materials organized.

SUMMER

- Stay involved in extracurricular activities, and seek out leadership roles in your community that will look good to colleges.
- Start communicating with admissions officers and recruiters at colleges on your list.
